

Planning Application Statement

1.0 Application Details

Reference: APP/2025/0187

Site Address: Former garage site, 14–18 Brayford Street, Lincoln, LN1 3XX

Applicant: Midlands Developments Ltd

Application Type: Full Planning Permission

2.0 Proposed Development

The proposal involves the demolition of the existing disused garages on the site and the erection of a 3-storey residential block comprising 12 apartments (8 x 2-bed and 4 x 1-bed units). The development includes associated parking for 6 vehicles and communal landscaping to the rear.

3.0 Site Context and Constraints

The application site is located within the Lincoln Conservation Area. It is situated immediately adjacent to a Grade II listed Victorian terrace at 20-24 Brayford Street. Furthermore, the site is located within 50 metres of the River Witham, and the Environment Agency's Flood Zone 2 boundary runs along the southern edge of the site.

4.0 Design and Policy Justification

The proposed 3-storey scale is considered appropriate and respects the height of the adjacent 3-storey listed terrace. The material palette comprises contemporary grey brick with zinc cladding to the upper floor, which the applicant considers provides a high-quality modern contrast to the historic surroundings. Two of the twelve units (16%) are proposed as affordable housing, which the applicant's viability assessment demonstrates is the maximum viable amount for this brownfield site. The submitted Flood Risk Assessment confirms that the residential use is safe and that floor levels will be raised by 300mm above the 1 in 100 year flood level.
